Handling system with rotating equipment for ISO glass and windows. An hydraulic rotating drive enables exact positioning respectively installation of ISO glass plates. Special safety system prevents accidental release due to faulty operation. For quick release of the glass plate a „push off equipment“ is installed.

Handling system with tilting equipment for glass plates, doors, windows and chipboards. Due to variable design all kinds of popular dimensions can be manipulated. Suitable for feeding of wood working machines.

ROTATING  
200°

LIFTING

safe working load: **150 - 250 kg**

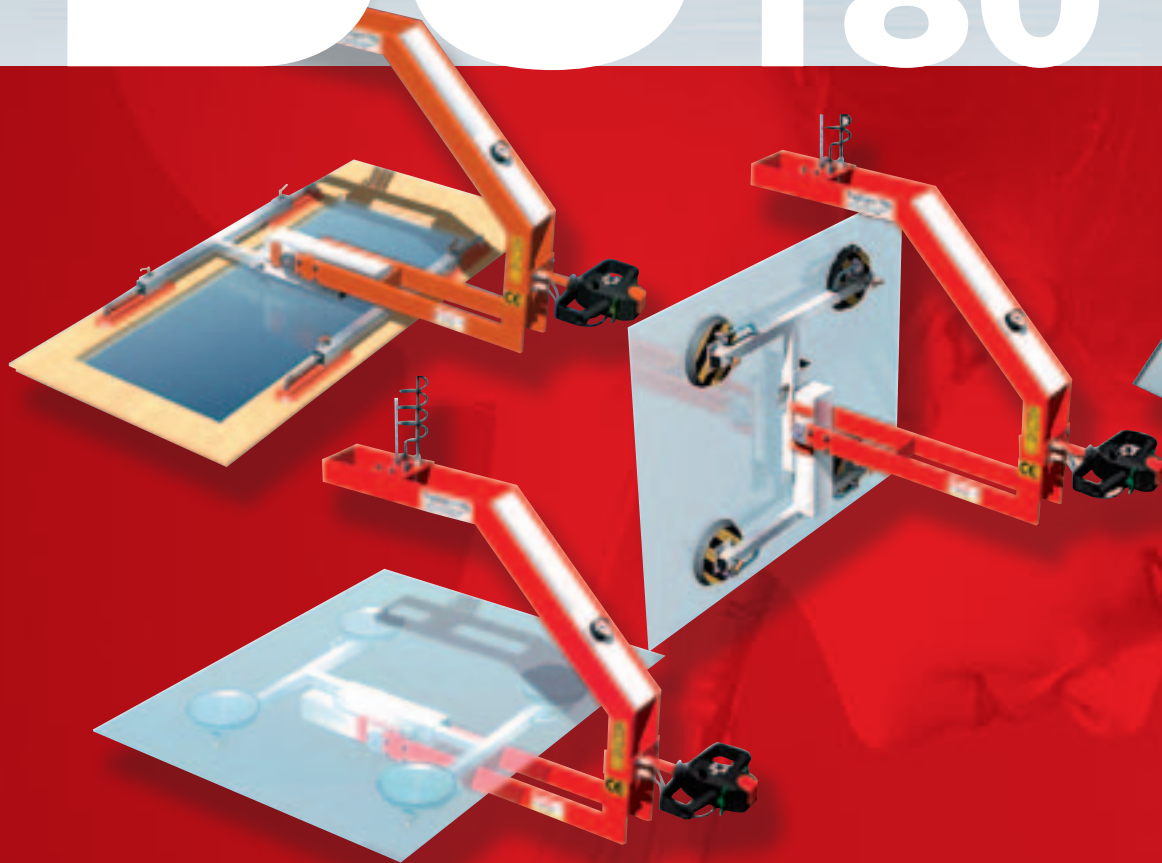

TILTING
