

We are a worldwide operating company and specialist in the field of vacuum lifting technology. For our branch office in Raleigh, NC, USA we are looking for a

Technician (m/f)

for installation, commissioning and telephone support in the USA

Your tasks

- Commissioning of modern automatic handling systems
- Independent assembly and commissioning at the place of delivery (USA)
- Thorough training phase (several months) in the factory and on assembly lines
- Independent telephone support and troubleshooting in case of support

Your profile

- Completed technical vocational training in mechanical engineering, mechatronics or similar (apprenticeship or equivalent)
- Professional experience desirable but not required
- Team player, communicative, quality-conscious
- Independent working style and good time management
- Readiness for permanent residence in the USA (Raleigh, NC)
- Duration of the assignment abroad 3-5 years or longer
- Duration of individual installations: usually 7-14 days

We offer

- Cooperation in a young, dynamic team of a modern, innovative company
- Pleasant working environment with varied tasks
- Loyalty, long-term cooperation
- Good earning opportunity
- Free accommodation (initial phase)
- Company telephone, notebook, iPad as required for assembly
- Opportunities for further training and promotion
- Multiple return home (at least 1x per year) for factory training in Austria
- Return to Austria after several years abroad also conceivable
